Training

During the year 2010, 27 veterinary students from Germany, Holland, the UK and USA spent some time in our centre for practical training.

Furthermore a course for 30 Italian vets was organized by the Foundation Mondo Animale in May. Most of them came back for a practical stage in the month from September to December.

Identification and Registration

This year 747 dogs were identified with a microchip and registered in the official data base of Regione Campania. 1906 cats were identified with a microchip but only registered at LPA.

Re-homing

In the year 2010 we managed to re-home 31 dogs and 12 cats with caring families.

In total 31 dogs and 12 cats entered the LPA centre for re-homing

Help for Strays

During the year 2010 over 1100 dogs and cats found in the street were brought to the LPA centre for an initial free of charge examination. Certainly during these visits we offer correct advice about general animal husbandry, grooming, feeding and birth control. For hopeless injured animals we offered euthanasia, naturally free of charge.

Our Vet-Clinic

In our veterinary clinic we have seen 2436 private animals during the year 2010. Their owners paid a low fee for our services. We keep our prices low to encourage pet owners to take their animals to a vet when it is sick.

CLAUDI

The vets Dorothea, Gigi, Giuliano, Emanuele and Valentina, helped by Lorenzo and Isabella, did not only neuter over 3000 animals, they managed the veterinary clinic, assisted the trainees, took care of the animals in the LPA centre and gave lessons during several courses throughout the year. Especially Isabella, she is a big help for LPA, she keeps the statistics, takes care of supplies, answers the phone and does lots of other things. Giovanni and Margherita clean the clinic and the shelter. The few but devoted volunteers Teresa, Dora, Rosa and Michelangelo come for one day a week and do whatever is necessary. Claudi and Andrea help from far away and keep the home pages running (Claudi: Italian and German, Andrea: English).
