

LEGA PRO ANIMALE

DID YOU KNOW

- ... that female dogs and cats are sexually mature at the age of 5 months?
- ... that they can mate at this age, and 2 months later (only 7 months old!) they can have their first litter?
- ... that female dogs have a heat cycle every 6 months and if they have access to a male they will be pregnant twice each year?
- ... that in one litter there can be up to 17 puppies?
- ... that female cats can have heat cycles continuously if they are kept in a house?
- ... that female cats can have up to 4 litters a year if they are free roaming?
- ... that a female cat can have up to 9 kittens in one litter?
- ... that male dogs and cats can mate with up to 300 females each year?
- ... that every mating results in a pregnancy?
- ... that dogs and cats do not have menopause?
- ... that in rural areas of southern Italy, over 80 % of dogs and cats are allowed to roam freely?

AND IF WE CONTINUE THE WAY WE DO, THOUSANDS OF PUPPIES AND KITTENS WILL BE BORN ONLY TO DIE!
