Vets are exchanging their experiences: Lorenzo (left) and Giuliano (middle) of LPA with Massimo, Italian vet who runs a little spay/neuter clinic in the south of Spain. He wanted to take part in one of our spay days.

Anna is always happy and her
 happiness is contagious to everybody

Vets at work: Adrian prepares anesthesia for 163 cats (above on the left), Gigi spays one female cat after the other (middle), Francesco takes care of the males (above, right) and Valentina is working on females (below, left)

The animals have to be under control until they are completely awake. If they throw up, action has to be taken immediately. Kathryn (above), Davide and Annalisa (below) watch them constantly. The volunteers need to feed the kittens, as soon as they are awake.

163 have to return in their cages after surgery, recovering comfortably in between warm blankets: (above: Michelangelo, below: Renate, left: Angela)

Carmen cleans 101 sets of surgical instruments (above) and Laura (below) prepares them for the autoclave

Mena spoils the entire team with delicious pasta!

MERRY CHRISTMAS AND A WONDERFUL NEW YEAR 2014

Please continue to help us so we can
continue to spay and neuter as many
